SPENCER COUNTY
COMMUNITY FOUNDATION

Supporting Our Sisters

Throughout history, women have shaped the world as national leaders, advocates for social justice, scientists, authors, teachers, and healers. Every day, women make positive contributions to the world, and when visionary women work together around a common cause, they have an even greater impact. . . like the Supporting Our Sisters Fund of Spencer County.

In 2006, a group of visionary women started the Supporting Our Sisters Fund as a permanent resource to support local programs that give opportunities, encouragement, knowledge and hope to our community's women of all ages. Because the fund is endowed, your gifts are never spent! Instead, they are prudently invested to generate proceeds that are awarded as grants every year to support a variety of resources serving women of all ages, such as programs that prevent domestic violence, secure family-supporting jobs, promote health and education and, perhaps most importantly, develop confidence.

The Supporting Our Sisters Fund of Spencer County is our voice for the present and our gift to the future. We invite you to join us in creating change for the women of our community
